May 2021

Brookville Elementary School

Shawn Thomas, Principal

Principal's News

Dear Parents and Caregivers,

What a year this has been with Covid. I just want to say how wonderful you have been supporting your students through this difficult time. The students have also been so resilient. They are amazing students who have the best support systems at home. Thank you for being patient with the school and all the changes.

Class lists and schedules are nearing completion for the 2021-2022 school year. Your child will be placed in a class on Move-Up Day. (May 26) Please know that these are tentative assignments and adjustments may be made if funding or staffing changes. You will also receive information from your child's teacher about next year including school supply lists. It is hard to believe that I will be sending our third graders to the intermediate building. A long-standing tradition has been to line the hallways of our school and "clap out" our third graders. Parents who are interested may join us on the last day of school around 3:10. Please meet behind the school on the playground. We will also be saying farewell to Mrs.Brown. We will miss her and wish her the very best! Please review the calendar of events in this newsletter for May as well as our school webpage. We have many fun and exciting activities!

Mrs. Thomas

Brookville Elementary School Virtual Talent Show!

We are pleased to announce that we are holding another virtual talent show this year! Students in grades preschool through third are invited to share their talents. Please see below for how to participate in the talent show this year!

Who? Students in grades PK-3

When? Videos are due no later than May 10th

Where? Send videos to Mrs. Nawroth (nawrothj@brookvilleschools.org)

How Long? 1 ½ minutes or less

What Talents? Dance, sing, play an instrument, tell jokes, magic show, read a story, virtually anything!

A finished talent show presentation will be shared via ParentSquare and the school website during the last week of school. Thank you for participating!

Nurse's Notes for May 2021

Kathleen Dafler, RN, LSN

Hello, All!

This school year has gone by quickly, even with the "dreaded" COVID-19 Virus being present.

Please continue being diligent about taking your child's temperature and monitoring for other illnesses such as strep, flu, colds, gastroenteritis, or other illnesses.

We weren't able to have the Mobile Dentist come to our school the 2020-2021 school year, but there is great news. The Mobile Dentist has been scheduled for the fall and spring of the 2021-2022 school year. The fall visit will be Wednesday, September 22, 2021 and the spring visit will be Wednesday, March 30, 2022. Please mark your calendar.

This is a reminder to all parents/guardians who have children who receive **any kind** of medication in the clinic. Parents/guardians will need to come to the clinic to get their child's medication. **No medications will be given to the children to take home**. When you get your child's medication**, please ask for a new medication administration form for next school year**. This form is also on the school's website. Please call if there are questions or concerns. Individual health care plans and emergency action plans can be updated this summer by your child's physician for the next school year as well. Once again, if there are questions or concerns, please call, 833-6796, extension 1102.

There are several students who are "in the process" of receiving their immunizations. Please submit the dates of those immunizations with doctor's signature as soon as possible. Those records will be evaluated in August to ensure compliance with ORC 3313.67 and 3313.671.

Please stay safe, healthy and happy.

May 3rd - 7th is Teacher Appreciation Week. Please let your child's teacher know how much you appreciate them and what they have done academically for your child.

Congratulations to Mrs. Nawroth's 2nd grade class on collecting the most Box Tops (digital & traditional) for the month of March. BES families-make sure to send in all traditional cut Box Tops prior to the last day of school, and continue to use the digital App throughout the summer.

ATTENTION The 2021-2022 PTA Officer & Committee Chair positions sign up sheet is going home this week. If you have any questions about any of the committees or officer positions, please message the Brookville Elementary PTA through their FB page. We need wonderful volunteers like you so we can continue to provide events and services to the Elementary students and staff. Many thanks to PTA members and volunteers for chalking the sidewalks for the 3rd grade AIR tests.

Camp Invention is coming to Brookville!

In partnership with the National Inventors Hall of Fame® (NIHF), Brookville Local Schools is pleased to offer the nationally acclaimed Camp Invention® program to children entering kindergarten through sixth grade. This exciting, weeklong summer adventure provides opportunities for open-ended exploration of science, technology, engineering and more! Children explore a variety of hands-on activities while collaborating with friends to think creatively and invent their own solutions to real-world challenges.

Given the challenges presented by the pandemic, this year, our program will be virtual. Activity kits will be delivered directly to you and daily virtual sessions will be led by a local educator. Your child will have everything they need for an amazing week of STEM fun!

The Camp Invention At Home program is designed so your student can create at their own pace, anytime, anywhere. While the live Zoom sessions are highly encouraged, they are optional. Your child can enjoy a completely unplugged experience and use the step-by-step activity booklets included in their Innovator's Toolkit and pre-recorded instruction videos to tackle the fun STEM challenges on your own time! The Zoom sessions are a wonderful way for your child to connect with other students participating in the program, however, and we look forward to collaborating together!

In this year's ALL-NEW Recharge program, children will take apart a microphone to explore its inner workings, build and test a device to launch rubber ducks, explore solar-powered crickets, design morphing vehicles for the Super Road Rally, and more! Each activity is designed to inspire curiosity, spark imaginations and give your young innovator the best summer ever.

Thanks to the generosity of the Hartshorn family, 19 campers will get an opportunity to participate in Camp Invention At Home for just $20! This is an amazing deal and we hope you will take advantage of this incredible STEM experience. Spots are available on a first-come, first-served basis so register today. We look forward to hosting Camp Invention, in person, next summer!

Please contact Kristina Dobberstein at dobbersteink@brookvilleschools.org with any questions and go to invent.org/camp to register today!

The Pyramid of Success is the PBIS program that we are following at Brookville Elementary School for Character Development. The part of the Pyramid that we are focusing on for May is **Being Your Personal Best!** Your personal best is taking all that you have learned this year and making it a point to work on the following skills: hard work, enthusiasm, friendship, loyalty, cooperation, self-control, determination, alertness, action, fitness, skill, team spirit, poise and confidence. As Coach Wooden would say "Success is happiness in your heart because you made the effort, 100%, to do your best!" The students who have won the Blue Devil Bucks have shown many of the qualities of the Pyramid of Success.

Blue Devil Buck Winners for the month of April
